

# WRR Rolloff Services

Planning a rolloff for your project? Please complete and return this form to [recycling@ncsu.edu](mailto:recycling@ncsu.edu)

- Plan ahead, please give WRR as much notice as possible of your upcoming project
- Provide a photo of the specific placement via email
- If your rolloff will be impeding traffic or will be placed in a parking spot WRR will coordinate with Transportation prior to delivery
- Once the project is complete, WRR will send a diversion report to the Project Manager
- Please see back of this sheet for rates and additional information

### Important Information:

- The best way to get in touch regarding rolloffs is via phone (5-9421) or email ([recycling@ncsu.edu](mailto:recycling@ncsu.edu))
- Only the Facilities PM and/or contractor PM request hauls/relocations of the rolloff
- One business days notice is requested for a haul
- WRR will provide plywood underneath a rolloff if it will be placed on turf or brick
- If the rolloff is being used for very heavy material (concrete, asphalt, etc) please contact us to schedule a haul when the container is half full
- Over-filled containers may be subject to extra charge for backhoe compaction
- Special circumstances or just need guidance for planning? WRR will assist by meeting at job site to discuss options!
